What to add

1. Landing Page (page umu user ajyaho bwambere): must have same manual explanation of what site is about
2. Only citizen do Register (**Admin** add create **officers** and **admin** accounts and username and **send random generated password**
3. Enable user to continue as guest(without loging in)

Guests can report cybercrime and view resources
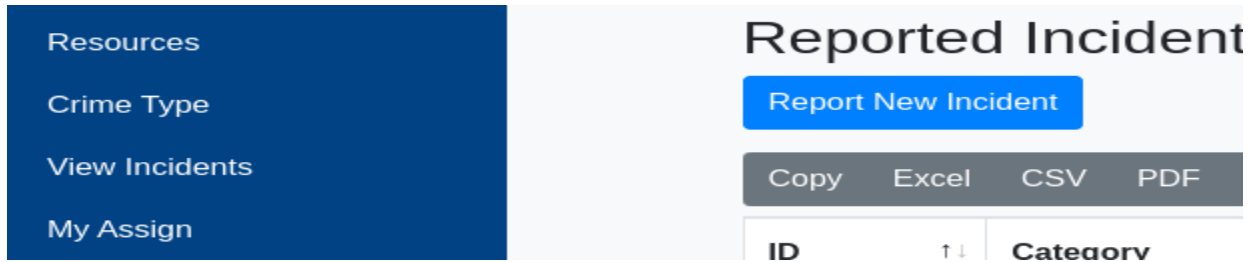

4. **Statistics (on sidebar** Contain summary and charts) : summary in the form of responsive cards showing (zishyire muri status zose)**Pending, Irrelevant, Under Review, Resolved, Closed, Most frequent, least frequent ..**
5. **Notification:** all user get notifications via button of system and email like when crime is assigned, recommandation provided or your case is closed
6. **Generate report : button for admin to output daily, monthly, … summary of crimes reporting**
7. **On Resources add same definitions**

On Admin Dashboard

1. **Add New Resource** (put it on side bar)

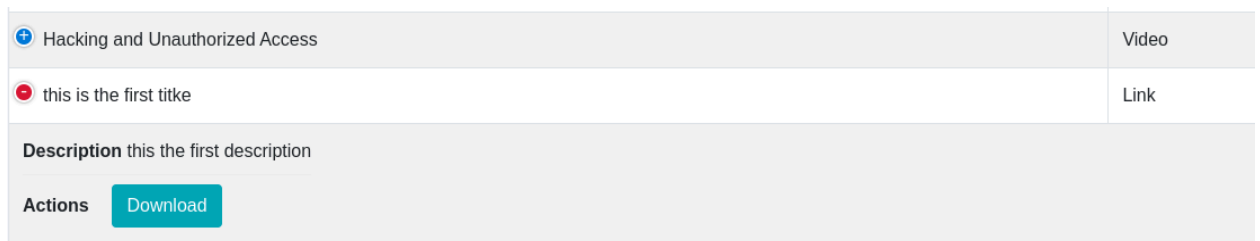

Do the same on Report New Incident

2. **CyberCrime type:** make it **Manage Cybercrimes** (include **CRUD, add new, view available, update, and delete)** functionalities

====> Other Users, including Guest, should see Available cybercrimes

3. **On Resources,** group them by categories

For example, here there is a **download,** but it is a **link**

4. **On submitted crimes, in Action, put other actions like assign to officer, Decline**

ID ↑↓	Category ↑↓	Description ↑↓	Status ↑↓	Reported By ↑↓	Actions ↑↓
1	Unauthorized modification of computer or computer system data	now now	Resolved	jean claude	Edit Delete
4	Online scamming	fdfvf	Pending	jean claude	Edit Delete

N.B: Project Inshingiye cyane cyane hano so niho ugiye gukora cyane ikaba iri user friendly

5. **Do the same on My Assign where submitted for can be well viewed**

6. On sidebar add **User Management (where admin view all users and manage their activities)**

7. Profile (prefer using the **Settings** for profile management, including **password change** and **updates,** and **profile picture**

jean ▾

This applies to all other users (officers and citizens users)

On the Officer Dashboard

1. Put **Report New Incident** on the sidebar

2. **Clearly View the assigned as form**
   Be able to directly provide **recomandation/comment on reported crime**
3. Update status with the button like **Mark As:**

   N.B: these are critical point on project so they should be clear

On citizen Dashboard

View available crimes that can be reported(the same as other users)

Guest (Anonymous)
For reporting use Anonymous form
View available resources
View available cybercrimes
Report cybercrime incident (but can not view what he/she reported

On incident report for

For registered users can not use form with all this details , we capture from user

Cybercrimes Reporting

Report a Cybercrime Incident

Crime Type

<< Select type >>

Firstname

Lastname

Anonymous Email (Optional)

Anonymous Phone (Optional)

Description

Location

On location use country, district and provice

Incident Date (**date occurred** and **date reported**(auto to now) **)**

Additionally, another security mechanism, like Multifactor authentication, password reset, and account recovery, makes the system valid .
